

## **TRAFFIC SAFETY POLICY**

The management of **TANCOMED, S.A.** undertakes to implement activities for the promotion and prevention of accidents on public roads. To this end, all employees and subcontractors, provided with their own vehicles or company vehicles, are responsible for actively participating in the various activities that they are programmed and developed. In order to reduce the probability of occurrence of accidents that may affect the physical, mental and social integrity of its own staff, subcontractors, community and / or environment.

Therefore, in order to fulfil this purpose, **TANCOMED, S.A.**, is framed under the following principles of action:

- Comply with current regulations regarding Road Safety, within the principles of safety, quality, preservation of the environment, protection of people and public space.
- Establish a commitment to comply with legal and other requirements, as well as the elimination of hazards and the reduction of road safety risks.
- Establish a commitment to continuous improvement of the Road Safety Management System.
- Establish strategies to raise awareness among personnel and subcontractors regarding preventive and corrective maintenance of company vehicles, provided for the exercise of the activity, especially transport, in order to maintain their optimum performance and establish control measures to prevent the occurrence of accidents that may cause damage to persons or property.
- Allocate the human, technical and financial resources necessary to comply with the policy.
