

Dear Customers,

As we informed you in the last statement, the Valencian Community suffered a cold drop or DANA on 29/10/2024. Hence, land and sea traffic have been affected in this area.

The National Traffic Authority in Spain has made an update to the circulation restrictions for heavy vehicles and time traffic limitations, with the partial lifting of mobility restrictions on the AP7 and A7.

The lifting of restrictions affects the increasing direction of the AP-7 and A-7 highways between the determined kilometric points at specified times. Hence, it is mandatory to take a diversion at the 336-kilometric point (link with A-3) to continue on the A-3 in a decreasing direction towards Madrid.

Working days (from Monday to Friday)						
Highway	Start		Finish		Duration	Direction
	K.P	City	K.P	City		
AP-7 North	465,5	Almenara (Provincial limit Castellón-Valencia)	480	Puzol (Valencia North by-pass start)	10 PM-6 AM	Increasing (Direction Alicante)
A-7 (North by-pass)	307	Puzol (Valencia North by-pass start)	336	(link with A-3)	10 PM-6 AM	Increasing (Direction Alicante)

The land operations of all the container terminals in the Valencian Port: MSC Terminal Valencia, APM Terminals Valencia and CSP Iberian Valencia Terminal operate again at 6 AM and work uninterruptedly until 8 PM.

Regarding container access to the Port, the Port Authority requests the logistics sector to prioritize import services where possible.

At TANCAMED we are constantly monitoring the evolution of this situation and we guarantee updated information on the impact that this situation may have on your loads.

Our team is actively studying possible alternatives that could minimize the upheaval of the events, assuming the commitment to share with you any news that may arise in this regard.

Your usual contacts, as always, are at your complete disposal to address any concerns that may arise.

Today more than ever, we greatly appreciate trust and understanding in such exceptional circumstances as those happening to us.

Thank for trusting us.

Sincerely,

Management

TANCAMED, S.A.
